

Fig. 1

FIG. 2c is a perspective view of the device 100 in a closed position. The device 100 includes a main body 2 and a handle 7. The handle 7 is connected to the main body 2 at a pivot point 12. The handle 7 is shown in a closed position, where it is folded against the main body 2. The handle 7 includes a grip 14 and a release button 10. The release button 10 is located at the end of the handle 7 and is used to operate the device 100. The main body 2 includes a top edge 2b and a bottom edge 10. The device 100 is shown in a perspective view, with dashed lines indicating the internal components and the movement of the handle 7.

Fig. 2c

FIG. 3a is a perspective view of the device 100 in a closed position. The device 100 includes a main body 2 and a lid 30. The lid 30 is hinged to the main body 2 at a hinge 31. The lid 30 is shown in a closed position, covering the main body 2. The main body 2 has a rectangular shape with rounded corners. The lid 30 has a rectangular shape with rounded corners and a hinge 31 at one end. The hinge 31 is a spring-loaded hinge. The device 100 is shown in a perspective view.

Fig. 3b

FIG. 3c is a perspective view of the device 10 in a closed position. The device 10 includes a main body 2 and a cover 30. The main body 2 has a front surface 2a and a back surface 2b. The cover 30 is hinged to the back surface 2b of the main body 2. The hinge 14 is located at the top edge of the main body 2. The hinge 14 includes a first hinge member 31 and a second hinge member 32. The cover 30 is shown in a closed position, covering the front surface 2a of the main body 2. The device 10 is shown in a perspective view, with the main body 2 and the cover 30 being the primary components. The hinge 14 is shown in a perspective view, with the first hinge member 31 and the second hinge member 32 being the primary components. The front surface 2a and the back surface 2b of the main body 2 are shown in a perspective view, with the front surface 2a being the primary component. The cover 30 is shown in a perspective view, with the cover 30 being the primary component. The device 10 is shown in a perspective view, with the device 10 being the primary component.
